GERMANY ADMITS MORAL POWER OF RIGHT MUST SUCCEED MIGHT

Kaiser Concurs in Many Ideas Expressed by Pope And Says He Is Ready To Support Arbitration and Seeks "Practical Basis For Just and Lasting Peace."

ATTITUDE OF THE UNITED STATES WILL NOT BE ALTERED BY REPLY

Man Who is Responsible for Death of Millions Again Endeavors to Shift Responsibility by Adroitly Worded Response to the Papal Peace Note.

AMSTERDAM, SEPTEMBER 22.—(ASSOCIATED PRESS CABLE)—THE GERMAN REPLY TO POPE BENEDICT'S PEACE PROPOSALS DECLARES SPECIAL MEASURES TAKEN BY THE GOVERNMENT IN CLOSE CONTACT WITH REPRESENTATIVES OF THE GERMAN PEOPLE TO DISCUSS ANSWERING THE QUESTIONS RAISED PROVE HOW EARNESTLY IT DESIRES TO FIND A PRACTICAL BASIS FOR A JUST AND LASTING PEACE.

Continuing, the reply says that Germany fully recognizes with His Holiness the high peace producing effect of arbitration to decide international differences of opinion and in this respect Germany is ready to support every proposal compatible with the vital interests of the German Empire and people.

The German reply says that the Imperial Government greets with special sympathy the leading idea in which His Holiness expresses the conviction that the future material power of arms must be superceded by the moral power of right.

REPLIES WILL NOT ALTER U. S. ATTITUDE

Washington, September 22.—(Associated Press Dispatch)—The replies made by Germany and Austria to the peace proposal contain nothing that will in any way alter the position of the United States as outlined in President Wilson's reply to the Pope.

The replies as received here in Associated Press dispatches were closely studied today by all officials who gave indications that they were little less than expected.

First examination of the replies failed to disclose anything in the nature of terms which would afford a basis for discussion.

Secretary Lansing expressed no opinion, but it was clearly indicated that such consideration as had been given had failed to develop any reason for alteration of the aims or intentions of this government, either in the conduct of the war or any peace adjustment that may come later.

(Associated Press Cable)
Amsterdam, September 22. — The concluding and most salient portion of the text of the German reply to the peace proposals says:

"The Imperial Government greets with special sympathy the leading idea of the peace appeal wherein His Holiness clearly expresses the conviction that in the future the material power of arms must be superceded by the moral power of right. We are also convinced that the sick body of human society can be healed only by fortified moral strength of right.

"From this would follow, according to His Holiness' view the simultaneous diminution of the armed forces of all the states and the institution of obligatory arbitration for international disposition.

"We share his Holiness' view that definite rules and a certain safeguard for a simultaneous and reciprocal limitation of armament on land, on sea and in the air as well as for the true freedom of the community and high seas are the things intreating with which the new spirit that in the future should prevail in international relations should find its first hopeful express. The task would then of itself arise to decide the international differences of opinion not by the use of armed forces but by peaceful methods especially by arbitration, whose peace producing effect we fully recognize.

The Imperial Government will in this respect support every proposal compatible with the vital interests of the German Empire and people.

"If the nations are governed by this spirit it will be recognized to the advantage that the most important thing is to lay more strength upon what unites them in their relations. They will also succeed in settling individual points of conflict.

"Only on this condition can a lasting peace be founded which would promote an intellectual reapproachment and a return to the economic prosperity of human society."

The document is signed by the Imperial Chancellor Michaelis and is addressed to the papal secretary of state Cardinal Gasparri.

REACH WASHINGTON

By Associated Press Dispatch.
Washington, September 22.—Eagerly watched by the great crowds the Italians making the flight in about two hours, arrived in Washington, circled over the city and then glided down to earth. The big Caproni landed in the polo field in the park with one of the smaller planes, but the other smaller machine landed across the river.

The flight, arranged by military authorities, was surrounded by a great deal of secrecy.

At the starting place no information was available of the personnel and everybody was ruled off the field.

HOUSE TO PROBE

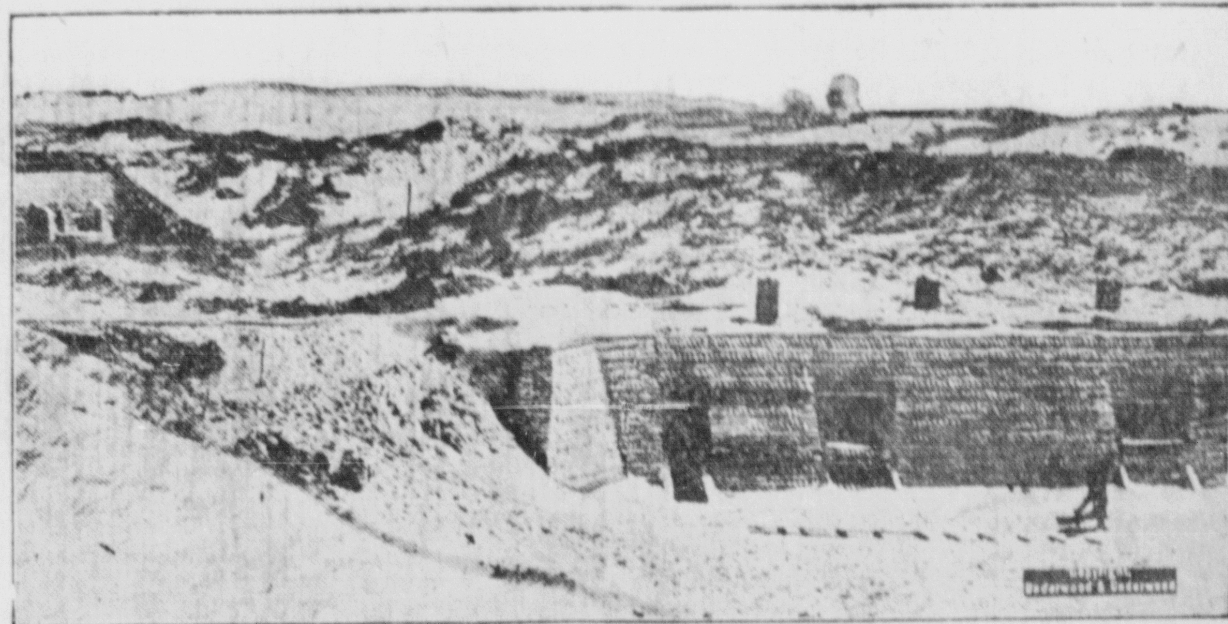

By Associated Press Dispatch.

Washington, September 22.—Chairman Flood of the House Foreign Affairs Committee, declared today after conferring with Secretary Lansing, that he thought there probably would be a House investigation of Count von Bernstorff's plan to influence Congress by spending \$50,000 as revealed in his dispatches to Berlin.

Secretary Lansing sees little that a Congressional inquiry could develop but charges made on the floor yesterday by Representative Hefflin, of Alabama, that certain members have "acted suspiciously" and veiled accusations made by other representatives in interviews, probably will force an investigation, Mr. Flood said.

After returning to the Capitol from the State Department, Mr. Flood began conferences with House leaders to learn their views. He declared Secretary Lansing gave him no new details regarding the von Bernstorff expose.

In the Sand Dunes of Flanders the Allies Are Breaking the German Hold of Belgium

Much of the fighting that is breaking the German hold on occupied France and Belgium is taking place in the wastes of the sand dunes of Flanders. The British here have kept hammering away at the front trenches of the Teutons until their forces have begun to withdraw from their positions. This photograph shows some of the homelike shelters of the British troops in the dunes. The puff of smoke is from a machine gun.

EARLY BREAK WITH OTHER POWERS NEAR

Senator King Produces Evidence of Money Paid Out by Austria for "Influence" and Makes Prediction.

By Associated Press Dispatch.

Washington, September 22.—Senator King, of Utah, read into the senate records today correspondence and photographic copies of checks to show payments of \$6500 by the German embassy here to the Fair Play Publishing Company with receipts signed by Marcus Braun and J. W. Bryan.

Senator King did not disclose the source of his documents but vouched for their authenticity. They also showed payments by the Austrian embassy to foreign language papers.

"We will soon be compelled to recognize," he said, "a state of war with Austria, Bulgaria, and Turkey because they are aiding Germany and using their influence against us."

Other reservation, he predicted, would be made of "the sinister and slimy course of German diplomacy in this and other countries."

WANT OHIO MAYOR OUSTED

By Associated Press Dispatch.

Columbus, O., September 22.—The Cambridge council today filed ouster charges with Governor Cox against Mayor Conrad Gang, of that city, asking his removal because of a refusal to appoint a successor to city solicitor John S. Tangler, who resigned to enter the military service of his country.

Three German Counter Attacks Broken Up in Short Order' and Last Assault Is Marked by Weakness.

The Germans Claim Successes Against Russians on Dvina River, Where Advance of 25 Mile Front Is Mentioned.

By Associated Press Dispatch.

In the field of hostilities the British campaign in Flanders alone commands interest.

Today's reports show General Haig to be holding fast to all valuable ground gained in the great attack on Thursday in the face of persistent counter attacks. The Germans, heavily increased their losses in these efforts but failed to achieve any compensating gains.

The only point at which the Teutonic thrusts were even temporarily successful was east of St. Julian and here the German were immediately driven out of the small section of ground penetrated.

Three counter attacks in all were delivered last night by the Germans. Apparently they had been exhausted by the failure of the first two efforts for the third made east of Langemarck did not have to be faced by the British infantry, the artillery alone being able to cope with it.

GERMANS CLAIM SUCCESS IN EAST

LOCAL BOARD MAY SUMMON MORE MEN UP

Recent Examinations Not Sufficient to Obtain Score of Men, Most of Whom Must Go to Camp in Two Weeks—Twelve Certified Over for Military Service.

In certifying over the only twelve men out of 84 recently examined who passed the physical examination and did not ask for exemption the Local Board announced Saturday morning that in all probability it would be necessary to call another contingent for examination in order to obtain the men necessary to fill Fayette's first quota of 85 men.

Fifty-two filed claims for exemption before the recent examinations were made, or immediately afterward, and 23 out of the 84 failed to pass the examination.

As virtually all of those who have asked exemption will possibly be discharged, at least temporarily, it will be necessary to obtain additional men who are not entitled to exemption, and an additional number may be summoned for physical examination immediately as 34 additional

men must be sent to the training camp from this county during the first week in October.

The twelve men who have been certified over to the District Board for military service, and who will probably be among the next Fayette county contingent leaving for the training camp are given below, and are men who have not sought exemption:

- 1102 Pearl Kelley, Rt. 2, New Holland, Ohio
- 1565 Frank Leslie Weyer, Bloomington, Ohio

PENNSY EMPLOYEES OF 42 NATIONALITIES

To ascertain the extent to which railroad employees of foreign birth subscribed to the first Liberty Loan, a special investigation has been completed on the directly operated lines of the Pennsylvania Railroad East of Pittsburgh and Erie. The result of this inquiry shows that out of a total of 160,127 employees, in all departments, 25,827 were born in foreign countries. There were, among all the employees—both native and foreign born—52,782 subscriptions, totaling more than \$3,400,000.

Nearly one in three of the foreign-born employees was found to have been a Liberty Bond purchaser. The exact number of subscribers of alien birth was 8,146, or almost 32 per cent. of the total foreign born. This was within two per cent of the proportion of employees of American birth who subscribed.

The inquiry also brought out the interesting fact that there are, in the service of the Pennsylvania Railroad, men of 42 different nationalities, besides native-born Americans; and members of 30 alien races were included among the buyers of Liberty Bonds.

The Italian race furnished the largest number of foreign-born employees on the Pennsylvania Railroad, the number being 8,365, or practically one-third of all alien born. Thirty-two per cent of the Italians, or a total of 2,725 employees, bought Liberty Bonds.

CLOSING SESSION ANNUAL W. C. T. U. CO. CONVENTION

Interesting Program Given—Comprehensive Reports Showing Unusual Activity Are Ready. Officers Chosen.

The annual county convention of the Woman's Christian Temperance Union held in Grace M. E. church Friday, passed off most successfully, and every earnest temperance worker present felt that it would give great local impetus to the coming prohibition campaign.

Not only was the attendance good, but the entire program measured up to the high standard of the organization.

Mrs. Alice Taggart of Jeffersonville, president, was in charge with the full quota of other officers present.

The morning session was devoted to business with the reports of the different officers, and an election of officers resulted in the re-election of all the officers. Mrs. Alice Taggart was unanimously chosen president; Mrs. Bruce Pine, secretary; Miss Ivy Allen of Jeffersonville, corresponding secretary; and Mrs. Carrie Willis, treasurer.

Afternoon Session.
In the afternoon session instead of Mrs. Serepta Short, who was unable to be present, Miss Mary Ervin of Cedarville, National Secretary of the Local Temperance League Branch, and speaker for the afternoon led the devotional exercises.

In the department reports Mrs. Ed Darlington, superintendent of the press department, was absent on account of sickness, so Miss Allen, the corresponding secretary read her report.

Mrs. VanGundy gave an encouraging report of the distribution of literature and the new members gained at the fair. Mrs. Laura Pine gave a very interesting report on health and efficiency.

One of the best reports of the meeting was made by Mrs. Frank E. Haines superintendent of Flower Mission. Reports of five unions showed 811 bouquets distributed; 383 growing plants; 202 packages of seeds; visits to sick and shut-ins, 1212; donations, garments, 415; 2 mattresses, 218 gallons of milk, 578 baskets of fruit and vegetables, 2 bibles to 2 county boys, 6 chickens, 12 pies, flowers, etc; visits to public institutions, 90; amount of money spent in work, \$302.95 and funeral emblems distributed, 44.

A beautiful vocal solo "My Mother's Bow of Ribbon White," was sung by Miss Daisy Cockerill, accompanied by Miss Alice Loofborrow.

Miss Mary Ervin, of Cedarville, gave the address of the afternoon: "What the Women of Other States are Doing to Help Bring State and National Prohibition," and gave a number of valuable suggestions that could well be carried out in the work in Ohio. Miss Ervin is a very fluent talker and an ardent worker.

Staunton union was presented with the banner as having the largest percentage of their membership present. They have 17 members, of which 16 were present.

Evening Session.
The evening session which was held in the high school auditorium was well attended.

Music was furnished by the 6th and 7th grades, which sang temperance songs to familiar tunes; Miss Ada Woodward sang sweetly "Rest in Thee" accompanied by Miss Dorothy Fullerton and Miss Roberta Stokesbury sang the verse of "John Barley corn, Goodbye," while the children joined in on the chorus.

Miss Mary Ervin, who had pleased her audience so much in the afternoon, gave a very interesting stereopticon lecture on "John Barleycorn," showing the results caused by drink and made the alarming statement that every fifth family loses one boy by drink.

HAVE NECESSITIES AT BACK DOORS

(Associated Press Correspondence)
Glasgow, Sept. 22.—The shipbuilders of Great Britain, who soon will be turning out virtually nothing else but standard ships and war vessels, have one advantage over the shipbuilders of the United States that will be hard to overcome. They have nearly all their material at their back doors.

From the decks of ships in one of the yards in the north of England, for instance, everything used in the construction of vessels is within sight. Iron is extracted from hills that look to be almost across the street. Coal comes from the same place. On the other side of the yard are great coke ovens, smelters, furnaces and rolling mills. Plates and steel forms may be carried from the mills to the ships under construction in cars drawn by horses. A single company extracts the ore, prepares it with its own fuel and sends it away from its own plant as finished ships ready for the sea. There are many such examples here in the north. The success of more than one of the shipbuilding concerns may be partially traced to the proximity of materials used.

The Mental Vision

When people are afflicted with that particular defect in vision which we call farsightedness our learned oculists and opticians can and do furnish a remedy.

By putting glasses, expertly fitted, before the eyes the abnormal range of vision is brought down to a par with that of the average human being. The man who sees, with his eyes, too far ahead and often blunders over obstacles close up, can be made to see as the normal man sees.

Unfortunately the men who are far sighted mentally can't be helped. No one has yet been able to suggest a remedy for the man who is always seeing clearly the obstacles way off in the future and overlooking those of the present.

We see men fail in politics, fail in business and fail in their profession because their mental range is entirely too long—they are conducting their affairs under entirely different conditions from those existing at present. The men of the normal vision who are neither short sighted nor far sighted are the successful men.

The men with the short sighted mental vision never see their opportunity until it has passed by and the men with the far sighted mental vision are always looking at conditions which cannot be seen by the average men.

If our educators could prescribe some remedy for those with the defective mental vision there would be many more successes in life.

The "Guide Posts."

The statement of County Commissioner Williams that definite, positive action has been taken by the duly empowered officials to place guide posts at all road crossings and intersections in Fayette County is encouraging.

That's fine. It will cause thousands of travelers on the highways every year to remember our county pleasantly.

It isn't often that an editorial request, for an improvement in public affairs, meets with such prompt compliance as did our request of Friday.

Erecting sign posts is one of the big, little things that has needed attention, for a long time, all over the state. It is a pleasure to see Fayette County leading the way.

Realization

It is difficult, even yet, after thousands of American boys have left home for the army and the cantonment training camps, for the people generally, to realize, in all its enormity, the fact that the United States is actually involved in war.

Congressional provisions for the raising of more than a score of billion of dollars, the oversubscription of the first liberty loan and preparation for a second liberty loan, the rush of preparation and all have not brought realization of the facts home to us, with that staggering positiveness, which keeps the stern fact uppermost in our minds, as the one great outstanding fact of importance in the lives of all of us.

When American troops are actually engaged in battle on European soil, when we reach that time, which we pray may never come, when the casualty lists contain the names of American boys, then the nation is going to realize, and rise up in righteous wrath and no power will be able to stand against the might of aroused patriotism.

We understand what the issue involved in this war is, we know the value of our sacred ideals, we know the great burden we have assumed, the tremendous task we have undertaken but, with many, the war is yet far away—across the sea.

Von Bernstorff Like the Others

Secretary of State Lansing, on Friday made an astounding addition to the list of amazing revelations showing the dishonesty and treachery of German diplomats.

Like the announcement of facts disclosing the treachery and utter untrustworthiness of German representatives in Argentina and in Mexico, there is that same simple directness and brevity about the announcement on Friday which carries with it the irresistible conclusion of absolute verity.

The Secretary of State has contented himself in all three instances with a plain announcement of facts leaving nothing for the accused but confession.

Many Americans entertained a good opinion of Count Bernstorff during his term of service in Washington.

We were inclined to think he had a hard job and was de-meaning himself well under trying circumstances.

Later developments, culminating in the exposure Friday, prove that we were wrong. Bernstorff was on a par with the rest of the Prussian Junker organization. He simply couldn't be honest and represent his government—it wouldn't stand for honesty.

We regret having thought well of him or spoken well of him and still we have no apologies to make for being deceived. We Americans can hardly realize yet that the representative of a nation of fifty million supposedly civilized people, could be guilty of such petty dishonesty.

Poetry For Today

MY LITTLE WET HOME IN THE TRENCH.

I've a little wet home in the trench
 Where the rainstorms continually
 drench.

There's a dead horse close nigh
 With his hoofs to the sky,
 Which gives off a most beautiful
 stench.

Underneath in the place of a floor
 There's a mass of wet mud and some
 straw.

And the Jack Johnsons tear through
 the rain-loaded air
 O'er my little wet home in the trench.

There are snipers who keep on the go
 So we keep our blest snapper down
 low.

And the star shells at night make a
 duce of a light.

Which causes bad language to flow.
 Then it's biscuits and bully we chew
 For its years since we tasted a stew
 But with shells dropping there,
 Why no place can compare
 With my little wet home in the trench.

The Huns in the trench o'er the way
 Seem to know that we've come here
 to stay.

They kick and they should
 But they can't drive us out,
 Though there's no dirty trick they
 don't play.

They rushed us a few nights ago,
 But we don't like intruders and so
 Some departed quite sore
 Others stayed evermore

Near my little wet home in the trench.

Then hurrah for the mud and the clay,
 Hurrah for "Der Tag," that's the day,
 When we enter Berlin
 That city of sin.

We'll make the black-hearted ones
 pay.

We'll think of the cold slush and
 stench.

While from the Huns our just pay-
 ment we'll wrench

There'll be shed then I fear
 Redder stuff than a tear.

For my little wet home in the trench.

WONDERLAND—THE HOME OF PARAMONT AND ART CRAFT

TONIGHT

THE GREAT COMEDIAN

BILLY WEST

Better Known as CHARLIE'S DOUBLE

The Hero

Monday, first episode of new serial Detective Story, 'The Mystery of the Double Cross'

A fascinating and most interesting story of love and adventure of two sisters who look exactly alike, save for the mark of The Double Cross and who fill each other's places in many incidents of the story.

Don't Miss The First Chapter Monday

SOCIAL & PERSONAL

Mr. and Mrs. John Draise gave a handsome dinner at their country home Friday evening, in honor of Mr. and Mrs. Robert W. Haines (nee Emma Draise) who returned from their brief wedding trip but a few hours earlier.

It was entirely a family affair, the close relatives welcoming the opportunity of extending congratulations and best wishes to the happy young couple, and the evening one of distinctive pleasure.

The home was embowered with fall flowers, marigolds and cosmos predominating, and carnations and roses sending out the fragrance of the conservatory.

Receiving with Mr. and Mrs. Draise and the bride and bridegroom were two cousins, Miss Lella Draise, of Mt. Sterling, and Mr. Roy Baughn.

The bride was extremely pretty in a handsome gown of black satin, with large white satin collar and tassels and white shoes.

Mrs. Draise wore a becoming gown of heliotrope Georgette crepe over silk and Miss Lella Draise was charming in pale-blue silk.

The grandfather of the bride, Mr. Jacob C. Smith, also participated in the hospitalities. The additional guests were Mr. and Mrs. David Haines, Mr. and Mrs. Harry Draise, of Greenfield, Misses Lella, Maria and Mary Bell Draise, Mr. Virgil Draise of Mt. Complimenting Miss Doris Willis, who leaves the first of October for Washington, D. C. to enter Fairmount school, Misses Helen Baker and Jocelyn Bowen entertained twenty-two girls of the younger set with a porch and "knitting" party Friday afternoon.

The ideal fall day, the congeniality of the group of vivacious young girls and the attractive surroundings combined to make the affair altogether charming.

The attractive young honor guest, who is one of the most popular girls of her coterie was wearing a pretty gown of white linen trimmed in Irish crochet.

Miss Baker looked very pretty in taupe satin, with georgette trimming and Miss Bowen in rose silk, with white georgette.

A decided success was the winner roast given Friday evening at Cherry Hill by the Epworth League of the Grace M. E. Church.

SILVER AT \$1.05
(By American Press)
Salt Lake City, Sept. 22.—Silver was bought by the assay office here at \$1.05 an ounce. This breaks the highest price paid for silver since 1881. Only a small quantity of silver is being sold through the assay office, as the greater part of the production of the silver mines of this state has been purchased by private dealers at a higher price than is being paid by the government.

BOGUS HALF DOLLARS FLOOD CHILLICOTHE

Counterfeiters are busy in Chillicothe, and federal agents and deputy sheriffs are scouring the city and community in an effort to locate the men or man shoving the spurious coin.
New counterfeit half dollars have suddenly appeared in abundance, and while the spurious halves are not good imitations, they are easily passed during the rush hours at various places—and the rush hours continue from early to late.
The work is of a very crude nature and can easily be distinguished from the genuine half dollar. It has that "greasy, slippery" feeling and has not the ring of the genuine. In weight, it is light and has a sort of sky-blue tint.
Some of the counterfeiters have been turned over to Sheriff Sweepston. He immediately notified his deputies railroad detectives, the police and communicated with federal agents in the city and at Camp Sherman.

THE SENSIBLE AND SCIENTIFIC WAY TO HEALTH

IS FOUND THRU THE NEW VIOLET RAY TREATMENT — IS BOTH CURE FOR, AND A PREVENTION OF DISEASE.
Considerable interest has been manifested in the new Violet Ray treatment, concerning which the HERALD recently published an article. In reply to inquiries on this subject, it should be stated that the machine itself is a compact, easily portable instrument, which becomes immediately charged on being connected with any electrical lamp socket. The current is applied to the subject thru vacuum glass attachments or electrodes. The rapid oscillations generate a new form of electrical force, called High-Frequency, which is the invention of the world-famed Nikola Tesla, while its curative quality was demonstrated after rigid tests by eminent French physicians. The current is excited to a beautiful violet color, and the electrode is held in the hand of the operator or of the subject himself, and applied to any part of the body. The strength of the current is regulated by an attachment on the instrument. When the glass electrode is in contact with the skin, it gives only a pleasant sensation of warmth, although the current is in reality passing thru the body and along the nerves. When the electrode is held a short distance from the skin a spray of violet colored sparks issues from the electrode to the skin and makes the treatment more intensified. It should be remembered that High Frequency currents are soothing and pleasant, do not cause the muscles to contract and are neither dangerous nor painful, although 100,000 volts or more may be passed thru the body. Also, that whereas glass is a perfect insulator for the ordinary current, it has high frequency current pass thru it. As many diseases require two or more Violet High Frequency ray treatments a day for a period of several weeks or more, it is advisable for the patient to own an instrument and give the treatments in his home, as it is the persistence in its use which results in many cures.
VIOLET RAY FOR BEAUTY
All women value their good looks, and any woman who possesses beautiful hair, a fresh, healthy-looking skin, free from blackheads and pimples, and strong, clear eyes, may well consider herself attractive, even if Nature has not endowed her with strict beauty of feature. To possess these gifts, she must have hair health as well as physical health. It has been demonstrated that the VIOLETTA is the greatest beauty developer known to science. It cures pimples, tones up the skin, and a single treatment puts natural color in the cheeks that will last an entire afternoon or evening. It cures dandruff, stops falling hair, and prevents baldness. It tones up sagging muscles, and by correcting the circulation, renews the tissues, thus making both men and women young in health and spirit; and it banishes insomnia, and soothes frayed nerves. The VIOLETTA is equipped with different electrodes for various purposes, these being interchangeable according to whatever treatment is desired, and the VIOLETTA is so moderately priced that any one can install one in his home. For particulars address the manufacturers, The Bleddon-Dun Co., 11-17 S. Des Plaines St., Chicago.

A Good Automobile Robe Is Very Essential
For morning and evening driving—later on you'll feel the need of one at all times, for the crisp air of Fall becomes uncomfortably chilly when speeding along the road.

WILL NOT REBUILD WESLEY CHAPEL

Wesley Chapel M. E. church, located on the Prairie pike, one mile east of Bookwalter, and which was totally destroyed in the memorable tornado which swept Bookwalter and community last March, will not be rebuilt.
This has been definitely decided upon by the trustees of the Chapel, and part of the membership will go to Union Chapel, Yatesville; part to Jeffersonville and part to Sedalia.
The church, a large frame structure, was a complete wreck after the tornado passed, the accompanying picture taken the following day showing how complete was the work of destruction.

ALL MEMBERS OF COMPANY M ARE WELL AND HAPPY
Letter States That No Talk of Going to France Before Next Spring Is Heard, and That Men May Go to Cuba for the Winter—Hard Drill.
A letter from a member of Company M, received by friends in this city, states that all members of the company are well and in good spirits, and that there is very little sickness in the entire "Rainbow Division," now quartered at Camp Mills, L. I.
The letter states that the talk about camp is that the troops will either winter in the United States at some cantonment; be sent to Cuba for the winter, or be scattered about the United States for guard duty. Very little talk of going to France before next spring, is heard about the camp, it is declared.
The men are undergoing new and intensive training, and not a day is allowed to go by without routine instruction intended to whip the men into shape for service in the field.
At 5:30 the men are called from their beds. At 6:00 o'clock breakfast is served; at 7:30 they march forth to drill and are given various kinds of drilling until 11:30; after a 30-minute rest dinner is served, and at 1:30 the men hop to the drill again and drill until 4:30.
At 5:30 comes dress parade and then retreat is sounded. The men then have the evening to themselves until 9:30, when they must turn in.

FORECLOSURE OF MORTGAGE ASKED
Foreclosure of mortgage and judgment on a note issued in March, 1914, is asked by the Bloomingburg Building and Loan Association in an action filed against Sarah E. Tanner, in common pleas court, in which some \$345 with interest is asked. E. L. Bush represents the plaintiff.

COURT'S DECISION HALTS REFERENDUM
(By American Press)
Columbus, Sept. 22.—Judge Rathmell, in common pleas court, granted a temporary injunction against Secretary of State Fulton, preventing him from placing on the ballots for the November election the referendum against the Reynolds women's presidential suffrage law, passed by the last Ohio legislature. Preceding this action Judge Rathmell threw out petitions from twenty-two counties as improperly certified.
As matter now stand the anti's have 66,401 names left on referendum petitions not declared invalid. They need 79,444. They have ten days yet to get new names to replace those thrown out. Other petitions before various courts over the state may be thrown out. The anti's will carry up Rathmell's decision. It will probably reach Ohio supreme court next week.
On the final outcome of the various court actions depends whether or not the people will get to pass on the act of the legislature granting women presidential suffrage.
Petitions from these counties were ousted: Ashtabula, Butler, Clinton, Crawford, Delaware, Fayette, Gallia, Guernsey, Jackson, Mercer, Putnam, Stark, Erie, Highland, Lawrence, Licking, Muskingum, Pike, Summit, Franklin, Green and Cuyahoga.
Suffrage leaders declare the court's action is a complete victory; anti's say neither side has won.

GEN. BLISS SUCCEEDS GEN. SCOTT

(By American Press)

Washington, Sept. 22.—Major General Tasker H. Bliss was named chief of staff of the army, to succeed Major General Hugh L. Scott, who reached the retirement age limit today.

General Hugh L. Scott, retiring chief of staff, will see active foreign service in command of a division of American troops, it was learned at the White House. It is certain that before he goes abroad, General Pershing will have been advanced in rank to that he will no longer be junior to General Scott.

General Bliss has been acting chief of staff since General Scott left for Russia several months ago as a member of the American mission. He also will reach the age of retirement on Dec. 31 next, but before his appointment there were intimations that he would remain as chief of staff for at least three months. When the American forces begin to reach France in large numbers, however, the strain on the chief of staff will become so great that a younger officer may be called upon to bear the burdens of the office.

Like General Scott, it is almost certain that if General Bliss is succeeded by a younger man as chief of staff he will go to an active field command.

WHAT FAYETTE'S MEN ARE DOING AT CHILLICOTHE

A letter from James Ballard, member in charge of the last contingent of 34 Fayette county men who went to Camp Sherman, Wednesday of this week, announces the safe arrival of the men, and that they are well pleased with their officers, who are pronounced exceptionally fine officials.

The men, he states, have plenty of substantial food, have undergone the physical examination, and each man received a shot in the arm and one in the back to guard against typhoid and smallpox. Most of the men withstood this ordeal in very good shape.

The first day's drill consisted of a four mile hike, with other exercises. The men are members of Company E, 330th Infantry, and most of the men are well pleased with their first military experience.

PRESBYTERIAN CHURCH

Next Sabbath is Home Day at the First Presbyterian Church. The pastor will preach on "Honor Thy Father and Thy Mother," the fourth sermon on the Ten Commandments. It is suggested that the families be present unitedly. In the evening he will discuss for the congregation "The Unpardonable Sin" an outlook upon the teachings of the Bible as to those sins. Rally Day will be observed a week from Sabbath.

REAL OLD TIME HOUSE DEMOLISHED BY ORDER OF STATE

Complying with the order of the state fire marshal, Mr. P. J. Burke is tearing away the rear portion of one of his south Fayette street buildings.

The structure is very old in fact although hidden from sight and for that reason long forgotten by the older residents, one of the few very old landmarks of this section.

The structure has been added to built around by brick structures used as an out building and later as a part of the brick building until, the original form and purpose was no longer distinguishable.

Mr. Burke says that he came to Washington more than sixty years ago and the structure was "old" then.

Workmen, after so long a time, succeeded in separating the building from its attachments and getting down to the original frame work which is a wonder in these times. The frame is all "pinned" together—no nails used—the joints are five by ten hewn oak and even the lath are the old old split lath.

Aside from one burned place in the outside joist the timbers are sound and good.

In the early "fifties" Mr. Burke says tradition relates, that Robert Stewart an old time tailor lived in the old house.

AUDIENCE IS PLEASED WITH ENTERTAINMENT

A large number of citizens who assembled at the Rogers Park, north of Bloomingburg, for the entertainment to be given by the Ohio Male Quartet were greatly pleased with the entertainers.

The quartet, composed of four colored men is one of the best in the state, and has a widespread reputation for their splendid work.

Many persons from this city motored up for the evening's entertainment.

ERECT NEW STACK

The Washington Milling Company has completed the erection of a second new stack over its big plant on South Fayette street.

The new stack is 65 feet and another recently installed is 80 feet in height.

Clear, white clothes are proof that the housekeeper uses Red Cross Ball Blue. All grocers.
